#DRIVE

Developer: Pixel Perfect Dude
Released: 2019

How #DRIVE influences my design:

I want to use #DRIVE's minimal presentation and strong typography as the main inspiration for my title screen with some adaptation for CONC's required features

ASPHALT 9: LEGENDS

Developer: Gameloft Barcelona
Publisher: Gameloft
Released: 2018

CRAZY TAXI

Developer: Hitmaker
Publisher: Sega
Released: 1999

How CRAZY TAXI influences my design:

I want to use their simple title screen and clear input directions as inspiration for making CONC's title screen straightforward and easy to navigate

FORZA HORIZON 5

Developer: Playground Games
Publisher: Xbox
Released: 2021

How FORZA HORIZON 5 influences my design:

I want to use their environment previews as inspiration for showing players what to expect from each level before they begin the race

DRIVE CLUB

Developer: Evolution Studios
Publisher: Sony
Released: 2014

How DRIVE CLUB influences my design:

I want to use their clean and minimal HUD as inspiration for displaying timing and laptime information without cluttering the players view

WIPEOUT OMEGA

Developer: XDev, Clever Beans, EPOS Game Studios
Publisher: Sony
Released: 2014

How WIPEOUT OMEGA influences my design:

I want to use their placement of important race info around the edges of the screen as inspiration for keeping CONC's HUD readable without obstructing the track

HOTSHOT RACING

Developer: Lucky Mountain Games, Sumo Digital
Publisher: Curve Digital
Released: 2020

How HOTSHOT RACING influences my design:

I want to use their bold arcade HUD and easily readable race info as inspiration for making important info clear at a glance for the player

MARIO KART 8 DELUXE

Developer: Nintendo
Released: 2017

How MARIO KART 8 DELUXE influences my design:

I want to use Mario Kart 8 Deluxe' clear finished feedback as inspiration for making the end of a race easily recognizable before transitioning to the results screen

#DRIVE RALLY

Developer: Pixel Perfect Dude
Released: 2024

How #DRIVE RALLY influences my design:

I want to use their temporary race notifications as inspiration for clearly communicating events like completed laps and checkpoints without permanently adding more to the HUD

F-ZERO

Developer: Nintendo
Released: 1990

How F-ZERO influences my design:

I want to use their immediate race feedback as inspiration for making important changes in the race state noticeable while the player can remain focused on driving

GRAND TOUR LEGENDS

Developer: IORAMA
Released: 2023

How GRAND TOUR LEGENDS influences my design:

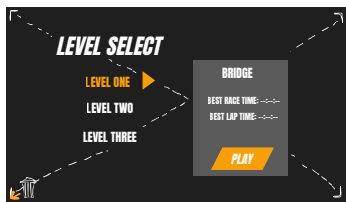

I want to use their presentation of race information as inspiration for giving the player clear feedback when important race events happen

MY DESIGN

Title Screen

Level Select

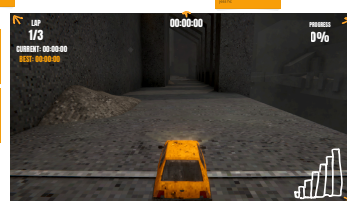

Design note: Level select screen

Design note: Level select screen

responsive resolution
show anchor indicators on game state
HUD groups are anchored to their nearest screen corner rather than positioned using fixed coordinates
central event notifications remain centred regardless of the resolution
margins keep a consistent safe area around screen
